Natalie,

Message received. I will work on this today. We used a consultant to do the TANKS computer work. I should be able to get from him what you have asked for.

Dylan

Dylan,

I have a follow-up to Savoy's latest response to EPA's request for information. The request asked for, in part, "copies of the input data, all documents and writings relied upon for the input data, and the generated model output data (i.e., include a complete printout of the report and not just the results page)."

However, the excel spreadsheets that Savoy provided in response (titled "Results Summary.xlsx" and "Input Data.xlsx") do not represent the full report printout and therefore do not contain all pertinent data that were entered into E&P TANKS for modeling. We need the complete printout of the report in order to verify the E&P TANKS results.

EPA's analyst has provided a few bullet points explaining exactly how to generate the "complete printout of the report" as requested in EPA's 114 letter:

- Within E&P TANKS V3.0, click on the printer icon in the navigation pane across the top of the screen.
- You will receive prompt "Print Report – Select Print Item."
- Select "Entire Report" and hit "OK"
- The program will open a new screen to show a print preview.
- You can then use buttons at top of that screen to export to Excel (preferred) or "Save as File" to save a .txt file.

Please provide the full reports asap for every tank battery for which E&P TANKS was run to model emissions.

Let me know if you have questions.

Thanks,

Natalie

Dear Ms. Topinka,

I am sending you (see attached) a revised cover letter which includes the required statement "I certify under penalty of the law....."; I mistakenly omitted this from previous letter sent this past Friday.

Regards,  
Dylan Foglesong

**Subject:** Request To Provide Information - Email #1

Dear Ms. Topinka,

With this email, I am submitting a cover letter, the tank emissions estimates, and related information requested by the EPA.

Please confirm receipt of this information by email.

Thank your for your patience in getting this done.

Dylan Foglesong
